About

My interpersonal, communication skills and relationship building are key strengths. I am able to adapt the level and style of my communication. I am a strong team player and willing to go the extra mile in order to meet objectives. I have a flexible nature and I readily adapt to change. Initiating action, analysing processes and problem solving are particular strengths that I wish to utilize in my future work environment.

I enjoy new challenges and would like the opportunity to show a prospective employer what I am capable of. I would like the opportunity of a 3-month in-service training, possible internship or weekend job in order to earn my own salary and gain valuable experience in the IT industry.
